## **GLOBAL ATTACKS TO THE ISLAMIC WORLD**

In its geography where it should be sovereign, the **Islamic world** has become the site of the **undeclared, secret, insidious, dirty and asymmetric World War III**, in which the ethnic and sectarian units within the unitary structures of each Islamic country are fighting each other.

**Despite the advantages they have, Islamic countries** have fallen into a great turmoil with the interventions of the imperialist western states. As a result of this turmoil, great suffering and destruction are experienced in the Islamic countries. Millions of Muslims are forced to choose between leaving their homes or dying. Thousands of Muslims die in various ways on the migration routes, and those who manage to migrate are doomed to live in poverty and misery.

According to the official data of the United Nations High Commissioner for Refugees, as of 2021, according to official records, 6.6 million Syrian citizens immigrated around the world. This figure is even higher with unregistered refugees. Syrian refugees migrated to Türkiye (3,388,698), Iraq (262,218), Jordan (660,605), Egypt (145,157), Lebanon (805,326) and other countries in North Africa (41,742). Apart from these figures, there are intense attempts to migrate to Europe and most of them lose their lives in the Mediterranean. Despite these adversities, the total number of registered refugees crossing into Europe from April 2011 to January 2021 was 1,022,142.

**The World War III is being waged as an undeclared war (hybrid war) against Islamic countries.** After the collapse of the Ottoman

Empire, the Muslims, who were left without a government, tried to continue their existence by establishing small states, but because they lost their unity and solidarity, they became an easy to swallow for global powers. **The United States, European Union, England, France, Russia and China aim to establish authority in Islamic countries by waging proxy wars with the terrorist organizations they control and the asymmetric war methods they apply in order to seize the Islamic geography.**
